

**SAFE HARBOR**

***Though life storms crash all around me  
I am guided by the light  
By wind, wave and sea  
And through the dead of night,  
He guides me to safe harbor  
Of a peace within my soul  
By faith I know he hears me  
By his grace I am made whole  
Is this the light I should follow  
Should I lift anchor and go on  
By faith seems so hollow  
It seems like eternity until the dawn  
When life's waves crash all around you  
And you can't find your way to shore  
Just seek his presence and he will guide you  
To that peaceful shore***
